September 2017

Dear Parent/Legal Guardian,

This letter is to inform you that students in your child's classroom may have **severe** food allergies to dairy, peanuts, tree nuts, and several other food products. Exposure to these allergens may cause a life-threatening reaction for a student.

To ensure that every student in our building is safe, Lyman A. Budlong, has adopted a policy for managing students with food allergies in compliance with Public Act 96-0349 to meet the guidelines created by the Illinois State Board of Education and the Illinois Department of Public Health. Because students with severe allergies cannot be in contact with foods containing these allergens, our lunch and snack time is nut free. Please note that even trace amounts of these allergens may result in a **severe** allergic reaction. Please do not send anything to school containing nuts or nut products.

We ask that you please discuss the following with your child:

- Do not offer, share, or exchange any foods with other students at school.
- No eating during recess.
- Encourage hand washing with soap and water or hand sanitizer after eating.

Thank you for your consideration and support of our students. Please call the main office at 773-534-2591 if you have any questions or concerns.

Sincerely,

Naomi Nakayama
Principal
