

Halloween Celebration Reminder

Budlong is committed to making continual improvements to our school culture and curriculum in areas of food and nutrition education, physical activity, and physical education to support each child's health and achievement. To this end, we have implemented the following guideline regarding food in classroom celebrations and rewards. As part of this commitment, Budlong School promotes healthy lifestyles by implementing a non-food birthday & holiday celebrations policy. On Wednesday, October 31st, students are allowed to come in costume. Students are permitted to wear face paint, as long as it doesn't distract from learning but masks are prohibited. At Budlong, we recognize that a child's health and wellbeing is the result of a team effort between parents, teachers, and the community, and we greatly appreciate your support with these changes
